

 **PacsSCAN™**

Pacs**SCAN**™ lets you scan paper, produce electronic forms and import JPEGs to any PACS from any department. Eliminates paper, improves workflow and provides access to important clinical documentation.

Pacs**SCAN** provides easy access to non-image documents, such as tech notes, screening forms and order information. In PACS, view documents, electronic forms and clinical JPEGs along with patient studies at the point of care.

Industry leading document scanning software

Why PacsSCAN?

- ⚙ **Easy** – Easily scan any paper document to any PACS from any department
- ⚙ **Fast** – Quickly import JPEGs, AVIs and MPEGs in less than one minute
- ⚙ **“It just works”** – Compatible with over 20 PACS solutions and all TWAIN compliant scanners

How it works... As easy as 1, 2, 3!!!

1. Select patient/study demographics from your RIS or DICOM archive

2. Scan the document and click "Send"

3. The document is now matched with the appropriate study

Now Includes Electronic Forms

Pacs**SCAN** allows you to create and distribute electronic forms to improve efficiency and workflow – eliminates paper scanning entirely!

- ⚙ **Eliminate paper "Print & Scan" cycle**
- ⚙ **Auto-fill key information fields**
- ⚙ **Use pull-down menus for rapid data entry**

New! Rapid data entry with stylus tablet

Optional tablet PC for electronic form patient data entry

Supports bar coding for accurate patient demographics

Need to import external DICOM CDs? Add **MediaImport** and extend Pacs**SCAN** with DICOM CD and DVD import.

PacsSCAN Features

- ⚙ Simple user interface allows anyone to scan documents without prior knowledge of PACS. No training required.
- ⚙ Interfaces to RIS worklist or DICOM Archive to provide automatic loading of patient demographics for ease-of-use. DICOM Modality Worklist (MWL) ensures an accurate match of scanned documents with patient studies. Includes extensive bar code support for rapid demographic entry.
- ⚙ Imports documents with TWAIN-compliant scanners and sends them via DICOM. Validated interoperability with over 20 PACS.
- ⚙ Direct import of multimedia formats including JPEG, bitmap, TIFF, PNG, AVI/MPEG and more
- ⚙ Access to confidential patient information is protected by username and password for each user. Supports LDAP/Active Directory for single sign-on convenience. Automatic time-out feature logs off after a predetermined period of inactivity.
- ⚙ Includes JPEG2000 compression to decrease storage requirements and transmission times
